

Mini Newborn, Sitter and Child Sessions

I now offer mini sessions, these are specifically for baby/child only images and can be of any age and include siblings. They are all done in a minimalistic set up. Plain simple and gorgeous.

Minimalistic photography has become a huge passion of mine and if you are interested in a quick relaxed studio visit then I am now offering these 30 minute sessions to capture your little ones just as they are. Plain white or grey clothing is all you need for these beautiful timeless and natural images.

A simple session like this deserves simple pricing. The session is £275 to be paid at the time of booking and you receive all the digital images available to download from your personal online gallery. Prints, wall art and albums are also available to purchase as extras.
