

They Don't Stay This Tiny For Long

Welcome and congratulations.

Newborn photography is such a precious keepsake to cherish now and also to look back on in years to come. I love nothing more than capturing your gorgeous little baby and all their perfect features just as they are. That is why my signature style is natural and simplistic. My

studio is in Ellon

Aberdeenshire and I have created a lovely space that is also child friendly for older siblings with a garden, toys and a T.V to keep little ones entertained. We usually

try to complete a newborn session within the first month after your baby is born, ideally within 21 days. We take an note of your due date and all you need to do is get in touch when your baby arrives to schedule in your session. Sessions usually last around 2-3

hours but there is no time limit on newborn sessions we just go with the flow with lots of time for feeding and settling.

Tiny fingers and tiny toes

I have completed extensive training with world-renowned photographers in this field. I am a proud commended member of BANPAS (baby and newborn photography association) and I follow their code of conduct for handling babies safely.

I have a selection of minimalistic shots that I like to get including baby, parents, sibling and family, you can also bring your dog. After that you can choose some of the other options that are available including dark or coloured textures and backdrops. The photo shoot is a time for you to sit back and relax, all the set ups are natural and comfortable for your baby.

Make yourself at home

If you have anything that you would like photographed with your baby I am happy to include these in some of the images to make them unique to you. Ensure to bring plenty of milk if you are bottle-feeding and we have facilities in the studio such as changing table and kettle. I also have unopened dummy's, even if you don't plan on using one they can come in handy if need be just for the few hours. Feel free to bring along a packed lunch and please make yourself at home and help yourself to all the snacks and hot drinks available.

What to wear?

Simplicity is key if you want timeless images. I would stick to neutral colours if possible, White and grey work best and comfort over formal clothing is also recommended. Dogs are welcome in the studio. Photographing fur babies with their tiny humans has become something that I love and will always put your babies safety first when setting up shots like these.

Baby Bump

I also do maternity photography, I adore my own baby bump photos, its such a special time to capture. I offer a great bump to baby package deal detailed in the pricing or you can opt for a bump only session for £275 that includes all the images.

I recommend this takes place between 30 and 36 weeks of pregnancy and offer both outdoor and studio style images at my studio in Ellon.
